MANUFACTURING SPECIFICATIONS

- Body and Sleeve: Brass CW617N nickel finish
- Ball: Brass CW617N chrome plated
- Stem: Brass CW617N
- Tail and nut: Brass CW617N nickel finish
- Side washers: PTFE
- O-rings: Nitrile rubber NBR
- Flat gasket: Fiber
- Butterfly: Red/blue painted aluminum
- Nut: Galvanized steel
- Threads: ISO 228

TECHNICAL SPECIFICATIONS

- Maximum working temperature: + 120 °C
- Min working temperature: - 20 °C (provided that the fluid remains in liquid phase)
- Maximum working pressure: See dimensional table (PN)
- Compatible fluids: Water, water and glycol solutions (maximum glycol 30%), non-corrosive fluids *

* to check compatibility with fluids or other substances not listed, contact Tiemme technical office.

INSTALLATION

- The valves can be installed in any position (orizental, vertical, ...) provided that shall be placed in visible and accessible position and the open/close operations shall be easily and completely done.
 - Otherwise stated to close the valve the handle shall be turned clockwise, counterclockwise to open it.
 - Otherwise stated by specific marks on the valve body (arrows,...) there is no valve flow direction.
 - The system shall be designed and realised in order to avoid any stress that could damage the valve and could compromise the sealing and the correct working of the valve.
 - All installation operations shall be done using properly tooling. The tightenings shall be such as to guarantee the sealing but without make any damage to the valve or fittings.
 - Once the installation have been completed is necessary to verify the sealings according to technical specifications and/or what required by the country of installation.
 - The valve should not be kept in intermediate position for a long period of time in order to avoid any damages of the valve sealings.
 - If the valve have not been used for a long period of time it may be difficult to operate therefore it will be necessary to use a "long lever".
 - To kept the valve and sealings in good conditions it is suggested to place a filter upstream in order to stop impurity.
- For any further information please contact the authorized dealers or directly TIEMME RACCORDERIE S.p.A.

TIEMME RACCORDERIE S.p.A. declines all responsibility in case of failures and/or accidents resulting from the non-compliance with these indications and from improper use of the system. The information given does not exempt the user from following the regulations and good technical regulations in force.
